Rockland Animal Rescue Mission Statement To balance the health, public safety, and welfare needs of people and animals in Rockland County by responsibly and humanely; providing nourishment and a safe environment for unwanted, stray, abused animals; educating the public about responsible companion animal ownership; investigating cases where animal care is questionable; and finding new loving homes for homeless animals. Values

- We are committed to the highest performance standards, ethical conduct, truthfulness, and moral behavior in our work with people and animals.
- We take pride in our professional level of service and hold ourselves accountable for our actions.
- We handle animals humanely and use restraint only as required and trained. Beliefs
- We believe that we are a part of the humane solution, not the problem of animal overpopulation. We are dedicated to animal welfare 365 days a year despite the sadness that we feel and the cruelty we see.
- We understand that warehousing animals for the sake of saving them from humane euthanasia is not in the animal's best interest.
- We believe that spaying and neutering of all pets is the solution to overpopulation.
- We believe that education is central to addressing animal cruelty, neglect, and overpopulation.
- We believe we make a difference in the lives of our community's animals.
